Dr. Hartmut Herrmann  
Institut für Physikalische und Theoretische Chemie  
Universität GH Essen  
Postfach 10 37 64  
D-45117 Essen, Germany

Dear Dr. Herrmann:

I am pleased to notify you that you have been reappointed "Visiting Associate in Environmental Engineering Science," part-time, for a one-year term, without stipend, effective March 27, 1996. Since this appointment is contingent upon your acquiring the proper visa, our Immigration Specialist will contact you shortly regarding the documentation necessary to complete this process. This action was recommended by the Division of Engineering and Applied Science and approved by the Provost. If these terms are agreeable, I would like to ask you to acknowledge acceptance of this reappointment by signing the enclosed copy of this letter and returning it as indicated.

For your protection, we require health insurance coverage during your stay at Caltech because of the high cost of health care. Evidence of this coverage can be provided by your current health care provider, or enrollment in one of the plans described in the enclosed brochure is available, with the cost being paid either by you or by your sponsor.

Your current identification card will expire at the end of your present appointment. You may receive a valid identification card in the Faculty and Postdoctoral Scholars Office (located in Room 010 of the Parsons-Gates Hall of Administration).

I am happy to have you continue your associations on campus, and I hope you will continue to find your stay at the Institute rewarding.

Sincerely,

David L. Goodstein
